DETAILED ACTION

Claim Objections

1. Claims 17, 20 and 22-24 are objected to because of the following informalities:
Claim 17 includes a typographical error in line 6, "parameters" should be --partners--.
Claims 20 and 22-24 depend from claim 17, require all the limitations of claim 17, and are objected to for the same reasons. Appropriate correction is required.

Election/Restrictions

2. This application is in condition for allowance except for the presence of claims 25-33 directed to an invention non-elected with traverse on 9/17/2007. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matters.

Allowable Subject Matter

3. Claims 34 and 35 are allowed.
4. Claims 17, 20 and 22-24 are objected to, but would be allowable upon fixing of the noted typographical error.
5. The following is a statement of reasons for the indication of allowable subject matter: Independent claims 17 and 34 require a heating process consisting of laser

welding with simultaneously irradiating a secondary electromagnetic radiation to homogenize the temperature field in the welding area. This limitation in combination with the other requirements of the claims are not taught by the prior art.

The closest prior art Sonntag [DE20001033U1, of record, previously cited] teaches welding by irradiating a laser beam and a secondary electromagnetic radiation. However, Sonntag requires a first pre-heating step using the secondary electromagnetic radiation. Claims 17 and 34 use the language "consisting of" for the heating of the joint partners to exclude a pre-heating step. Claims 20, 22-24 and 35 depend from one of claims 17 or 34, and are allowable for the same reasons.

6. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
